Features

Main Features

- Games
- Account
- Login/Logout
- Subscription/payment manager
- Create Forums

Secondary Features

- Common Facts Page
- Home page

New Feature

DEMO

We will now present a demonstration

Known Bugs

- Game Page isn't responsive for smaller or larger screens
- Map not rendering on wordpress site, might be an expensive premium feature
  - Only closest gym location is shown based on user's location on home page

Local Host Map

Future Implementation

- Point System
  - Learn php to interact with sql database
  - Style a point system to be shown on game page
- Fixing Map not rendering issue
  - Potentially find a better plugin that allows for js, html, css
- User Roles
  - Use PHP to include user roles into the site
  - Roles such as coach, nutritionist and exercise science experts
- Tweets from twitter
  - Interact with twitter api using php to show fitness tweets for users to view

Thank You for Your Time
